

PhD at SISSA

The **International School for Advanced Studies (SISSA)** welcomes applications for fully funded PhD fellowships

Theoretical Particle Physics

commencing in October 2025 with a **four year duration**.

Application deadline: February 17, 2025

Selected candidates will be invited for an online interview

Faculty Members

Aleksandr Azatov
Francesco Benini
Sergio Benvenuti
Matteo Bertolini
Giulio Bonelli
Sergio Cecotti
Laura Donnay
David Marzocca
Toby Opferkuch
Marco Serone

Research Directions

Physics beyond the SM
Early Universe physics
LHC and future colliders
Non-perturbative Quantum Field Theory
Holography and Black Holes
Gravity and String Theory
SUSY and Conformal Field Theory

SISSA

About SISSA: The International School for Advanced Studies is a leading research and training institution in Trieste, Italy. It offers first rate facilities, internationally renowned teaching staff, and close relations to the International Center for Theoretical Physics (ICTP), the National Institute for Nuclear Physics (INFN), the Astronomical Observatory of Trieste (OATs/INAF) and several other research institutions, including the new IGAP and IFPU institutes in the Miramare Campus.
